

Railway Rivals Map DM DENMARK

For 4-6 players

Start

(4 players): 2 each at Aalborg and København (55)
(5 players): add 1 at København (55)
(6 players): add 1 at Aalborg

Runs

36 runs from either set of key numbers to either set of key numbers
No specials

Notes

The second set of key numbers 61-65 are made up of the islands marked as such on the map. Key number 66 represents the island of Bornholm, reached via ferry from København (56)

Connections within København yield no 6-point bonuses

You may continue building from the hex in which a ferry disembarks

The bridges over the Store Bælt (Nyborg - Korsør) and Lille Bælt (Fredericia - Middelfart) and the causeway Svendborg - Y7 are considered track already built which can be hired at no cost
Thus, a player with a connection at one end may continue building from the other end

All lakes are impassable; however a player may build along the thin strip of land between T59 and U64
