

Railway Rivals: Map PSW

[Pacific South West USA] © D G Watts 1973, 2009

Scale: 1 hex = 40 Kilometres [about 25 Miles]

Note: owing to the wide range of latitude, and the need to keep longitude lines vertical, W-E distances have been slightly stretched in the N, and reduced in the S. You may build track in all states, and in Mexico.

Start points: Any of the 8 points marked S in the East. **Railway Rivals** is a Rostherne Game. Enquiries about all Rostherne Games: contact Mr Theo Clarke, 24 Anglesea Rd, IPSWICH IP1 3 PP. T: 01473 280 310.

Special Runs: Any lowland hex [not half hex] in:

- 1 = Oregon. 2 = Idaho. 3 = Nebraska/Kansas/Oklahoma.
- 4 = Texas. 5 = Mexico. 6 = Seaport [San Francisco, Long Beach, San Diego]

This is a 'trial' map, produced for postal play [with Mr Clarke's permission] by: D G Watts, 102 Priory Rd, MILFORD HAVEN, Pembs SA73 2ED. T: 01646 692752

Best with 4 players, but there is room for 5 or 6.

'T' 'apfrog' rule essential.
