

RAILWAY RIVALS MAP 50 SARDINIA SARDEGNA

Scale 1 hex = 6 Km.

3 players : all start at Cagliari

3 or 4 players : start at any town on the coast.

Leapfrog rules highly recommended.

Note: some liberties have been taken with the landscape: in fact, most of the island is high plateau, so the valleys and lowlands are not necessarily good routeways. Due to malaria in the past, few towns developed in the lowlying areas. Coal (and other minerals are found in the SW corner, as suggested by one of the place names!

There were few railways along the coast, or the main valleys. The map has been designed to allow main roads to develop as railways, as well as the real lines.
